Tuesday June 4th 2013

Today was a SS day. Pretty much a text book SS day with markets penetrating the Sell day highs and reached TTT levels before reversing.

Tomorrow will be a Buy day. The decline is nearly all done, therefore the rally could start at any time.

Tuesday June 11th 2013

Today was a Sell day. Markets compensated for the small decline of yesterday by declining further. One good thing was that markets opened this morning below the BDL and we knew we had high odds of at least climbing back to these lows.

Tomorrow will be a SS day. Some markets are below the BDL and we again have high odds of at least getting back to the BDL.

Wednesday June 12th 2013

Today was a SS day. As mentioned last night, markets had high odds of making it back to the BDL and they did. At which point the decline started.

Tomorrow will be a Buy day. The decline is in place therefore the rally could start at any time. However having closed on the lows of the day, momentum may take the markets lower before the rally starts.

Thursday June 13th 2013

Today was a Buy day. As expected markets did go lower before the rally started.

Tomorrow will be a Sell day. Markets have achieved more than the average rally so far. We could expect a confusing day. Momentum may take markets higher before the confusion starts.

This report is now based on the September 2103 contracts

Tuesday June 18th 2013

Today was a Buy day. Well it looks like the bulls fooled us today by starting the rally at the end of the day yesterday, which produced a very small decline for today.

Tomorrow will be a Sell day. We are we are half way up the rally which may make for a confusing day. FOMC may just help in the confusion.

Wednesday June 19th 2013

Today was a Sell day. Markets failed to go higher and therefore declined and even got below the BDL.

Tomorrow will be a SS day. Based on the odds markets should at least rally back to the BDL. However momentum may take them lower before that rally starts.

Thursday June 20th 2013

Today was a SS day. Well we were due for a failed 3 day rally and this one was a solid failure as they didn't even attempt to get back to the BDL

Tomorrow will be a Buy day. Although the decline is currently exceeding its average levels, momentum may take markets lower before a rally can start.

Friday June 28th 2013

Today was a SS day. Pretty much a text book day, with the retesting of the Sell day highs and the decline that followed.

Monday will be a Buy day. A good part of the decline is in place. Momentum that started at the end of today may take the markets lower before a rally can start.

Friday July 5th 2013

Today was a Sell day. Markets continued their rally to reach TTT levels and then reversed to go retest the BDL and then rally again.

Monday will be a SS day. There is still room to rally and based on the close, momentum should take the markets higher before a decline start.

Tuesday July 9th 2013

Today was a Buy day. Momentum did take the markets higher and then produced only a small Day Session Decline, before the rally started.

Tomorrow will be a Sell day. A good part of the rally is in place which may make for a confusing day.

Wednesday July 10th 2013

Today was a Sell day. As expected markets were confused with the exception of NQ which rallied and reached TTT levels.

Tomorrow will be a SS day. Again we are half way to TTT levels which may make for another confused day.

Thursday July 11th 2013

Today was a SS day. NQ was the driver today and dragged all the others up.

Tomorrow will be a Buy day. Since markets closed on the highs for the day, momentum may take markets higher before the decline starts.

Monday July 15th 2013

Today was a Sell day. Today's rally was forever slow, but they did produce some kind of rally.

Tomorrow will be a SS day. There is still room to go up in this 3 day rally, however we need to be careful as the decline could start at any time.

Thursday July 18th 2013

Today was a Sell day. Markets continued their rally and reached TTT levels but then reversed.

Tomorrow will be a SS day. At the last minute, NQ closed below the BDL and should try to get back above sometime before the close tomorrow. The others may just rally up to their TTT levels if NQ don't drag them down

Friday July 19th 2013

Today was a SS day. ES rallied trying to drag NQ to the BDL but NQ didn't follow as ES reached TTT levels.

Monday will be a Buy day. Having closed on the Highs today, momentum may take markets higher before the decline starts.

Monday July 22th 2013

Today was a Buy day. The markets did produce a little decline in this super slow day.

Tomorrow will be a Sell day. A rally should be produced if we get out of today's coma.

Tuesday July 23th 2013

Today was a Sell day. Markets all rallied above yesterday's highs but NQ reversed and dragged the others down.

Tomorrow will be a SS day. NQ id below the BDL and has good odds of getting back to at least these levels.

Wednesday July 24th 2013

Today was a SS day. NQ used the overnite session to get back to the BDL and most markets retested the sell day highs and started their decline. Matter of fact ES reached the Average Range for a SS day to the Tick and reversed.

Tomorrow will be a Buy day. There is room to decline a little further before the rally can start.

Thursday July 25th 2013

Today was a Buy day. Pretty much textbook day with markets testing the previous day low and even reached TTT levels. The rally then started.

Tomorrow will be a Sell day. Base on averages the rally should continue, however it could be in a confused way.

Tuesday July 30th 2013

Today was a Buy day. Markets retested their Previous day Lows and failed to go lower. The rally then started.

Tomorrow will be a Sell day. Sell days are often confused and with all the news coming tomorrow It will most likely live to its name.

Tuesday August 6th 2013

Today was a SS day. Markets tried to retest yesterday's highs and failed. The decline then started and they reach the violation levels before stabilizing

Tomorrow will be a Buy day. There is room for the decline to continue.

Friday August 16th 2013

Today was a Sell day. Markets moved lower and then tried to rally and failed, only to close below the BDL.

Monday will be a SS day. We do have good odds of at least getting back to the BDL, once accomplished markets may go either way.

Monday August 19th 2013

Today was a SS day. Markets made it back to the BDL and as soon as the last one (TF) made it, markets reversed and the decline started.

Tomorrow will be a Buy day. There is room for the decline to continue and momentum should take the markets lower before a rally can start.

Tomorrow will be a Sell day. A good part of the rally is done, therefore we may be in for a confused day.

Wednesday August 21st 2013

Today was a Sell day. As expected it was a confused day. Markets pulled back rallied and pulled back again.

Tomorrow will be a SS day. Some of the markets closed below the BDL and therefore we know that we have good odds that we will rally at least to these levels. Once achieved markets could go either way.

Thursday August 22nd 2013

Today was a SS day. As mentioned last night some markets were below the BDL and we had good odds of making it back to the BDL. Well the other markets took all day to drag YM to its BDL and that just before the close.

Tomorrow will be a Buy day. Momentum may take the markets higher before the decline starts.

Friday August 23rd 2013

Today was a Buy day. We had 2 different declines one in the overnight session and a 2nd after the markets opens. Since markets opened above the previous day highs this morning, we knew we had extremely high odds of at least getting back below these levels. That a good shorting opportunity which needed attention once we got back under PH.

Monday will be a Sell day. Based on the close of today, the rally should continue but maybe in a confused way.

Tuesday August 27th 2013

Today was a SS day. Markets did produce a positive 3 day cycle on the 24hrs session, however the failed to do so in the day session.

Tomorrow will be a Buy day. Markets have already produced a bigger than average decline. Having closed near the lows of the session, momentum may take markets lower before the rally can start.

Tuesday September 3rd 2013

Today was a Sell day. Markets tried to get above yesterday's highs and failed to get much higher and then reversed.

Tomorrow will be a SS day. Markets are at or below the BDL. They should rally to get above these levels before a decline can start.

Wednesday September 18th 2013

Today was a Buy day. As expected markets rallied a bit before the decline started. The decline ended up being small and then the rally started.

Tomorrow will be a Sell day. So far the rally is in place. Having said that momentum may take markets higher and then the markets may become confused.

Tuesday September 24th 2013

Today was a Sell day. It started well with a retest of the BDL and a rally started. Then confusion did set in and a reversal came about.

Tomorrow will be a SS day. YM is below the BDL and will need to get back about that level before the close tomorrow.

Wednesday September 25th 2013

Today was a SS day. Markets tried to rally to get YM above the BDL. YM did succeed by 1 tick during the Globex session but failed by 1 tick in the day session.

Tomorrow will be a Buy day. There is plenty of room for this decline to continue.

Thursday September 26th 2013

Today was Buy day. Surprisingly markets retested yesterday's highs before declining to retest yesterday's lows. The test of the highs 1st was probably due to the failure of YM to reach the BDL yesterday. The retest of the lows held and a rally started.

Tomorrow will be a Sell day. There is room for the rally to continue but it may be in a confused way.

Friday September 27th 2013

Today was a Sell day. Again we are having problems with only YM not making a rally during the day session only.

Monday will be a SS day. YM should get back to the BDL as the others try to rally again

Tuesday October 1st 2013

Today was a Buy day. With these new manipulators, the decline was smaller than expected, before the rally started.

Tomorrow will be a Sell day. The rally should continue but most likely in a confused way.

Wednesday October 2nd 2013

Today was a Sell day. Markets were confused but didn't make higher highs just declined and rallied again.

Tomorrow will be a SS day. Again there is room to rally but I would expect more confusion.

Thursday October 3rd 2013

Today was a SS day. As mentioned last night we did get a confused day. Markets tested their previous day low and then rallied again and then the decline started but once the maximum violation levels were reached, they rallied again.

Tomorrow will be a Buy day. There is room for the decline to continue.

Monday October 7th 2013

Today was a Sell day. Markets tried to rally but most ended up toying with the BDL. YM and TF even closed below the BDL.

Tomorrow will be a SS day. Markets should rally at least until TF and YM gets above the BDL after which time anything goes.

Tuesday October 8th 2013

Today was a SS day. As expected YM and TF made it back to the BDL and then all the markets reversed.

Tomorrow will be a Buy day. So far the average decline is in place however momentum may take the markets lower before a rally can start.

Thursday October 17th 2013

Today was a Buy day. Markets made a smaller than average decline and then the rally started and reached passed all penetration levels.

Tomorrow will be a Sell day. We are already at the average rally levels. Momentum may take markets higher however I would be expecting some confusion.

Today was a Sell day. There was not too much confusion as the markets continued their rally to reach and surpass their Penetration levels

Monday will be a SS day. Momentum should take the markets higher before a decline starts.

Tuesday October 22th 2013

Today was a Buy day. There were good trades to be had this morning at the open when some of the markets opened higher than the previous day high. It was time to look for an excuse to short and hold the trade at least until they reached PH. Matter of fact ES reversed right on that target.

Tomorrow will be a Sell day. There is room for this rally to continue, however it may be in a confused way.

Wednesday October 23rd 2013

Today was a Sell day. Markets were confused and retested the BDL a few times.

Tomorrow will be a SS day. Based on today's action, markets could go either way. As long as we open above the BDL tomorrow then the decline could start at any time

Monday November 4th 2013

Today was a Buy day. Some did open today above the previous day high which gave some opportunity to short as we knew the extreme high odds of at least getting back under PH

Tomorrow will be a Sell day. Part of the rally is in place which should make for a confused day.

Thursday November 7th 2013

Today was a Buy day. Some of Markets open above yesterday's highs this morning and we knew we had very high odds of at least getting back below PH. Some had to drop quite a bit in order to drag YM below PH at which point all markets dropped hard and some exceeded all levels.

Tomorrow will be a Sell day. Momentum may take markets lower before a rally starts.

Wednesday November 13th 2013

Today was a Sell day. Markets retested the BDL and some made it the Violation levels. This was before the open this morning which made a good opportunity to long. They then rallied and some reach TTT MA level,

Tomorrow will be a SS day. Although some are their TTT MA levels for tomorrow, momentum may take markets higher before the decline starts.

Friday November 15th 2013

Today was a Buy day. Momentum did take the markets higher overnight and they opened above the SS day high, therefore giving us a chance to short. However they had a very small decline and as soon as all of them made it below PH they reversed and the rally started.

Monday will be a Sell day. Based on averages the rally should continue

Today was a Sell day. It was a confusing day and some closed below the BDL.

Tomorrow will be a SS day. We know that we have good odds of at least getting back above the BDL.

Tuesday November 19th 2013

Today was a SS day. The other 3 tried to rally and drag the Nasdaq above the BDL but they failed by 4 points. The other 3 did make it above the BDL.

Tomorrow will be a Buy day. There is a decline in place, however there is room to continue, should they want to

Thursday November 28th 2013

Today was a Buy day. Markets made a very small decline but only in the overnight session and therefore failing in the day session

Tomorrow will be a Sell day. Often when we get a failure on a Buy day that was a shorten day, they try again on the next day. That or we may just get a failed cycle due to the holiday.

Friday November 29th 2013

Today was a Sell day. Markets rallied a bit then a reversal came and they closed at or near the BDL

Monday will be a SS day. Markets will need to rally to get above the BDL should we open below. Once they all reach the BDL then the decline could start at any time.
